## The Building

The Hostel is located in the 11th District of Buda, in the neighbourhood of the campus of the Budapest University of Technical Sciences on the Irinyi Street. The building has excellent connection to the public transport system. Two tramlines connecting the place with the Grand Boulevard of Pest and five bus lines helps you to reach all the sight of the City. During the educational year the Hostel serves as a university dormitory of the Faculty of Mechanical Engineering. The 52 year old building has been completely refurbished in 2006.

It's a building of 9 stories, which offers a wonderful view of Budapest.

## Hostel floors

Each of these general floors contains 60 rooms in both sides of the I-shaped corridor. In each floor you will find three elevators, laundry, storages, kitchen, and dining room. You can use the meeting rooms, kitchenettes and lounge areas of each hostel floor.
